LextEdit 2.7 Released

Tuesday, 15 March 2011 22:54 -

Lots of new improvements, these are just a glimpse at some of the changes:

- Enhanced Trace Profiler expanding the rich colorization of trace information.
- Overhauled communication and added support for new connection methods.
- Insert statement value/value context highlighting.
- Expanded trace History adding access for up to 6 months of previously viewed traces.
- New authentication means never having to acquire a license key.

Check it out for yourself by [Downloading](#) the 2.7 version today.

Enjoy the new product...
